

To our Club Members,

Thank you for the time spent on your feet cooking sausages to provide the money to purchase emergency food for the drought affected dairy farming family in Wondai. They have been really struggling over the past few months with many hurdles faced of finances, health, weather, age etc., and the statement was made to us “I don’t think I will be able to put food on the table for us”.

We were able to supply groceries, fresh fruit & veg. kindly donated from the **Tewantin Green Grocer**, meat purchased from the butcher in Wondai, an electric beater, footwear & Noosa Heads Lions dropped off a box of goodies. **Mark Shelton** rallied to the cause with large size boots and 2 Visa cards for fuel and general purchases.

You may wonder about the electric beater – Ruth has been making cakes & scones selling them door to door in town to make some income as lack of nutritious feed for stock meant greatly reduced milk production and then when it did rain the cows stopped producing milk!! Stupid things!

Our dear friend **Steve Priest**’s clothes were put to great use as he was the same size as our farmer & Adele, he will look amazing in Steve’s floral boardies in the mud around the dairy!

The area received 100 millimetres of rain in that stormy period 2 weeks ago, the sun has come out and the grass is green and you are inclined to think “what drought”! We experienced “experienced green drought’ in Canberra so we know it is just a tease!

Last night the family rang to pass on their sincere thanks & stated that they hadn’t eaten meat for 6 months & were over the moon about the corned silver-side.

So, to all of you I say thank you from **Michael & I** and also one dairying family who are just over the range from Noosa.

Regards,

Jay
